(Molecular Therapy: Nucleic Acids 11, 367-381; June 2018)

This article has been retracted at the request of the editor-in-chief. Similarities were found between images in this article and an article in *Cell Death and Disease* (Zheng et al., 2018, *Cell Death Dis.* 15, 253, <https://doi.org/10.1038/s41419-018-0305-7>). All authors of the *Cell Death and Disease* article appeared as authors of the *Molecular Therapy - Nucleic Acids* article. Image analysis performed by the editorial office confirmed findings of image duplication in Figure 4B of the *Molecular Therapy - Nucleic Acids* article. This reuse (and in part misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system.
