

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Erratum Regarding Declaration of Ethical Statements in Previously Published Articles

Previously published content in Techniques and Innovations in Gastrointestinal Endoscopy did not include explicit ethical statements. This erratum is to confirm that ethical guidelines were followed in all instances and research published within the journal adheres to ethical standards as outlined in the Instructions for Authors. See https://www.tige journal.org/content/authorinfo#Ethical%20Standards for full details. The appropriate ethical statements, provided by the Authors, are included below:

- 1 "Chromoendoscopy Techniques in Imaging of Colorectal Polyps and Cancer: Overview and Practical Applications for Detection and Characterization" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(1):30-41) https:// doi.org/10.1016/j.tige.2020.10.006
 - Declaration of ethical statement: The study did not require the approval of an institutional review board.
- "The Role of Narrowed Spectrum Technologies and Dye-based Endoscopy in Inflammatory Bowel Disease: New Advan-2 ces and Opportunities" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(1):42-56) https://doi.org/ 10.1016/j.tige.2020.10.005
- Declaration of ethical statement: The study did not require the approval of an institutional review board.
- "Diagnostic Value of Endomicroscopy for Gastrointestinal Diseases: New Possibilities and Concepts" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(1):57-68) https://doi.org/10.1016/j.tige.2020.09.005 Declaration of ethical statement: The study did not require the approval of an institutional review board.
- "Volumetric Laser Endomicroscopy in Barrett's Esophagus" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(1):69-76) https://doi.org/10.1016/j.tige.2020.08.001
- Declaration of ethical statement: The study did not require the approval of an institutional review board. "Endocytoscopy for Luminal Gastrointestinal Diseases: A Systematic Review" (Techniques and Innovations in Gastroin-5
- testinal Endoscopy, 2021;23(1):77-86) https://doi.org/10.1016/j.tige.2020.09.004 Declaration of ethical statement: The study did not require the approval of an institutional review board.
- 6 "Molecular Imaging and its Applications in Selected GI Diseases" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(1):87-98) https://doi.org/10.1016/j.tige.2020.09.003 Declaration of ethical statement: The study did not require the approval of an institutional review board.
- "Training for Advanced Endoscopic Imaging in Gastrointestinal Diseases" (Techniques and Innovations in Gastrointesti-7 nal Endoscopy, 2021;23(1):99-106) https://doi.org/10.1016/j.tige.2020.09.001 Declaration of ethical statement: The study did not require the approval of an institutional review board.
- 8 "Safety in Endoscopy for Patients and Healthcare Workers During the COVID-19 Pandemic" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(2):170-178) https://doi.org/10.1016/j.tige.2020.10.004
- Declaration of ethical statement: The study did not require the approval of an institutional review board. "Stay (GI) Healthy: COVID-19 and Gastrointestinal Manifestations" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(2):179-189) https://doi.org/10.1016/j.tige.2021.01.006
 - Declaration of ethical statement: The study did not require the approval of an institutional review board.
- "Recent Advances in Endoscope Disinfection: Where Do We Stand in the COVID Era?" (Techniques and Innovations in 10 Gastrointestinal Endoscopy, 2021;23(2):190-198) https://doi.org/10.1016/j.tige.2020.10.001
 - Declaration of ethical statement: The study did not require the approval of an institutional review board.
- "Staying (Mentally) Healthy: The Impact of COVID-19 on Personal and Professional Lives" (Techniques and Innovations 11 in Gastrointestinal Endoscopy, 2021;23(2):199-206) https://doi.org/10.1016/j.tige.2021.01.003 Declaration of ethical statement: The study did not require the approval of an institutional review board.
- 12 "Stay Connected and Up To Date: GI Meetings and Seminars and the Coronavirus Disease 2019 Pandemic" (Techniques and Innovations in Gastrointestinal Endoscopy, 2021;23(2):207-211) https://doi.org/10.1016/j.tige.2020.11.001 Declaration of ethical statement: The study did not require the approval of an institutional review board.
