Correction to: *Translational Psychiatry* <https://doi.org/10.1038/s41398-022-02248-7>, published online 15 November 2022

The original version of this article contained a typo in the text. The correct over-all sample size is 27651 instead of 27537 (with one included cohort, NTR, including $N = 6839$ individuals instead of the reported $N = 6725$). All analyses, including the main GWAS and all secondary analyses, were conducted with the correct sample size, this is simply a reporting error. The original article has been corrected.
