Erratum regarding missing declaration of competing interest statements in previously published articles

Declaration of competing interest statements were not included in the published version of the following articles that appeared in previous issues of *Radiology Case Reports*.

The appropriate statements, provided by the Authors, are included below.

1. “Anomalous origin of right vertebral artery from right common carotid artery” [Radiology Case Reports, 2021;16(6):1574–9] doi:[10.1016/j.radcr.2021.03.059](https://doi.org/10.1016/j.radcr.2021.03.059).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
2. “Sebaceous carcinoma of the chest wall: A case report” [Radiology Case Reports, 2021;16(7):1870–3] doi:[10.1016/j.radcr.2021.04.060](https://doi.org/10.1016/j.radcr.2021.04.060).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
3. “Imaging findings of a case of intravascular large B-cell lymphoma with cardiac involvement” [Radiology Case Reports, 2021;16(7):1780–4] doi:[10.1016/j.radcr.2021.04.030](https://doi.org/10.1016/j.radcr.2021.04.030).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
4. “Myocarditis following COVID-19 vaccination” [Radiology Case Reports, 2021;16(8):2142–5] doi:[10.1016/j.radcr.2021.05.033](https://doi.org/10.1016/j.radcr.2021.05.033).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
5. “Contrast-enhanced ultrasound of intrahepatic portal vein gas: Case report and review of literature” [Radiology Case Reports, 2021;16(8):2151–3] doi:[10.1016/j.radcr.2021.04.056](https://doi.org/10.1016/j.radcr.2021.04.056).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
6. “Intrahepatic gallbladder mimicking a cystic liver lesion: A case report & literature review” [Radiology Case Reports, 2021;16(9):2746–8] doi:[10.1016/j.radcr.2021.06.068](https://doi.org/10.1016/j.radcr.2021.06.068).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
7. “Testicular artery originating from the inferior mesenteric artery: An alert for interventionalists—a case report” [Radiology Case Reports, 2021;16(9):2710–3] doi:[10.1016/j.radcr.2021.06.059](https://doi.org/10.1016/j.radcr.2021.06.059).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

8. “Pineal region pilocytic astrocytoma showing uncommon growth: A case report” [Radiology Case Reports, 2021;16(9):2663–7] doi:[10.1016/j.radcr.2021.06.053](https://doi.org/10.1016/j.radcr.2021.06.053).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
9. “Mediastinal thymoma: A difficult diagnosis in the pediatric age” [Radiology Case Reports, 2021;16(9):2579–85] doi:[10.1016/j.radcr.2021.06.035](https://doi.org/10.1016/j.radcr.2021.06.035).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
10. “Pneumatosis cystoides intestinalis, a rare case in a pediatric patient following allogeneic hematopoietic stem cell transplantation: CT findings and literature review” [Radiology Case Reports, 2021;16(10):3120–4] doi:[10.1016/j.radcr.2021.07.053](https://doi.org/10.1016/j.radcr.2021.07.053).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
11. “Changes in pelvic alignment in a woman before and after childbirth, using three-dimensional pelvic models based on magnetic resonance imaging: A longitudinal observation case report” [Radiology Case Reports, 2021;16(12):3955–60] doi:[10.1016/j.radcr.2021.09.053](https://doi.org/10.1016/j.radcr.2021.09.053).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
12. “A case of a small-sized cavernous hemangioma in the right ventricle - an incidental finding” [Radiology Case Reports, 2022;17(3):856–62] doi:[10.1016/j.radcr.2021.12.038](https://doi.org/10.1016/j.radcr.2021.12.038).
Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
13. “Ocular manifestations in a patient with Dandy-Walker malformation: A case report” [Radiology Case Reports, 2022;17(3):812–5] doi:[10.1016/j.radcr.2021.12.027](https://doi.org/10.1016/j.radcr.2021.12.027).
Declaration of competing interest: Conflict of Interest: None
14. “Adrenocortical carcinoma with multiple liver metastases controlled by bland transarterial embolization and surgery resulting in long-term survival” [Radiology Case Reports, 2022;17(4):1095–8] doi:[10.1016/j.radcr.2022.01.052](https://doi.org/10.1016/j.radcr.2022.01.052).
Declaration of competing interest: We wish to confirm that there are no known conflicts of interest associated with this publication and there has been no significant financial support for this work that could have influenced its outcome.
15. “Endovascular embolization of posttraumatic high-flow priapism: Uncommon arteriovenous fistula of the corpus cavernosum” [Radiology Case Reports, 2022;17(4):1044–6] doi:[10.1016/j.radcr.2022.01.019](https://doi.org/10.1016/j.radcr.2022.01.019).
Declaration of competing interest: None.
