

Data Sharing Statement

Data

Data available: No

Additional Information

Explanation for why data not available: Written requests for access to the data reported in this paper will be considered by the corresponding author and the Scientific Board of the Swiss MS Cohort Study and a decision made about the appropriateness of the use of the data. If the use is appropriate, a data sharing agreement will be put in place before a fully de-identified version of the dataset used for the analysis with individual participant data is made available.
