The World Journal of
MEN's HEALTH

Supplement File 4. Global Andrology Forum: post-meeting practice test.

Post-meeting practice test

This module is based on five research papers that were analyzed for the SRMA-1. A flow-chart on the classification of the analytic study designs is provided below for your reading. The module will close on Monday, February 7th, 5:00 p.m. EST. Once the link is closed, you will not be permitted to take the test.

Flow-chart on analytic study designs (from
https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2998589/)

Article #127: Based on the PICO (Population, Intervention, Comparators and Outcome) model of the SRMA-1 on varicocele, the correct design that describes the article #127 is: *

○ Randomized controlled trial (RCT)

○ Nonrandomized controlled trial

○ Case-control study

The World Journal of
MEN's HEALTH

◉ Uncontrolled cohort

Article #518: Based on the PICO (Population, Intervention, Comparators and Outcome) model of the SRMA-1 on varicocele, the design of article #518 is: *

○ Randomized controlled trial (RCT)

○ Nonrandomized controlled trial

◉ Uncontrolled trial

○ Case-control study

Item #412: Based on the PICO (Population, Intervention, Comparators and Outcome) model of the SRMA-1 on varicocele, the correct design that describes item #412 is: *

○ RCT can be included in SRMA-1

○ Case-control

○ Observational

◉ RCT can NOT be included in SRMA-1

Article #431: Based on the PICO (Population, Intervention, Comparators and Outcome) model of the SRMA-1 on varicocele, the correct design that describes article #431 is: *

○ Randomized controlled trial (RCT)

○ Nonrandomized controlled trial

○ Case-control study

◉ Uncontrolled trial

Article #1: Please indicate the "SD of the mean" of sperm count in the group of patients, before varicocele repair: *

○ 4.8

○ 6.8

○ 5.3

◉ None of the above
