- Prefer not to answer
- Other (please specify) _____

Research Questionnaire - Medical Student Training in a Community Paediatric Clinic

Q4: What is your highest level of educational attainment to date?

- Leaving Certificate/High School Graduate
- Undergraduate Degree
- Masters Degree
- Professional Degree
- Doctorate Degree
- Other (please specify) _____

Q5: What is your post-graduate career focus?

- General medicine
- Paediatrics
- Surgery
- Obstetrics and gynecology
- Psychiatry
- Undecided
- Other (please specify) _____

Q6: How did you enter this degree programme?

- Direct entry
- Graduate entry

Q7: Prior to your work in KidScope, did you have experience of working in a community-based setting?

- Yes
- No

Q8: Prior to your work in KidScope, how often did you work with children or families from disadvantaged communities?

- 1-----2-----3-----4-----5
- None at all A little A moderate amount A lot A great deal

Research Questionnaire - Medical Student Training in a Community Paediatric Clinic

Q9: During your time working in the KidScope clinic, did you gain experience of the following (tick multiple if necessary):

- Observation of child
- Physical assessment of child
- History and note-taking
- Completing developmental questionnaires
- Interactions with family members
- Write-up of clinical reports
- Contribution to child/family support plan
- Participation in after-clinic meetings
- Other (please specify) _____

Q10: Do you believe the KidScope Clinic gave you an opportunity to develop clinical skills?

- 1-----2-----3-----4-----5
Strongly disagree Disagree Neither disagree nor agree Agree Strongly agree

Q11: To what extent do you agree your experience within the KidScope Clinic improved your understanding of child development?

- A great deal
- A moderate amount
- Not at all

Q12: How useful did you find the after-clinic meetings?

- 1-----2-----3-----4-----5
Not at all useful Not so useful Somewhat useful Very useful Extremely useful

Q13: Do you feel the post clinic interdisciplinary meetings provided an opportunity to apply your clinical skills and knowledge learned?

- Yes
- No

Research Questionnaire - Medical Student Training in a Community Paediatric Clinic

Q14: To what extent do you feel the after-clinic multi-disciplinary case discussion meetings added to your overall learning?

1-----2-----3-----4-----5
None at all A little A moderate amount A lot A great deal

Q15: How valuable was the practical experience you gained in KidScope to your overall learning about child health and development?

1-----2-----3-----4-----5
Not at all valuable Not so valuable Somewhat valuable Very valuable Extremely valuable

Q16: What was the key learning you took away from your time in the KidScope Clinic?

Q17: To what extent do you believe KidScope's multi-disciplinary approach to service delivery can improve child health and development?

1-----2-----3-----4-----5
None at all A little A moderate amount A lot A great deal

Q18: Did you notice a difference in the needs and/or complexity of cases presenting at KidScope compared to the hospital-based paediatric development clinic?

Yes

No

If yes, please elaborate:

Q19: Compared to a hospital-based clinic, do you feel the KidScope Clinic setting aids children and families experience of undergoing a medical assessment?

Research Questionnaire - Medical Student Training in a Community Paediatric Clinic

Yes

No

If yes, please elaborate:

Q20: Explain briefly how you feel your experience of the KidScope Clinic has contributed to your medical training.

Q21: Having knowledge of both a hospital-based paediatric development clinic and the KidScope Clinic, briefly outline any additional advantages or disadvantages of either or both settings on child health and development.
