

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: The source data behind the graphs in the paper.

File name: Supplementary Data 2

Description: Initial coordinate of MD simulation

File name: Supplementary Data 3

Description: MD Coordinate file for Figure S14

File name: Supplementary Data 4

Description: MD simulation input file

File name: Supplementary Video

Description: MD simulation video of the TGFBIp G623R fibril and L-PGDS complex.
