Supplementary figure 4. Reanalysis of ependymoma scRNAseq data showing UEC-A and UEC-B ST cluster marker gene expression at single cell resolution. **A**, Reference UMAP projection of neoplastic scRNAseq dataset from 26 EPN patient samples with subgroup and major PFA cell types indicated. UMAP feature plots of top **B**, UEC-A and **C**, UEC-B ST cluster marker expression in scRNAseq dataset.
