

The 2022 Metrics of the HUPO Human Proteome Project

*Gilbert S. Omenn^{*1, 2}, Lydie Lane³, Christopher M Overall⁴, Charles Pineau⁵, Nicolle H. Packer^{6, 7}, Ileana M. Cristea⁸, Cecilia Lindskog⁹, Susan T. Weintraub¹⁰, Sandra Orchard¹¹, Michael H.A. Roehr¹², Edouard Nice¹³, Siqi Liu¹⁴, Nuno Bandeira¹⁵, Yu-Ju Chen¹⁶, Tiannan Guo¹⁷, Ruedi Aebersold¹⁸, Robert L. Moritz², and Eric W. Deutsch²*

¹University of Michigan, Ann Arbor, Michigan 48109, United States, ²Institute for Systems Biology, Seattle, Washington 98109, United States, ³CALIPHO Group, SIB Swiss Institute of Bioinformatics, 1015 Lausanne, Switzerland, ⁴University of British Columbia, Vancouver, BC V6T 1Z4, Canada, ⁵French Institute of Health and Medical Research, 35042 RENNES Cedex, France, ⁶Macquarie University, Sydney, NSW 2109, Australia, ⁷Griffith University's Institute for Glycomics, Sydney, NSW 2109, Australia, ⁸Princeton University, Princeton, New Jersey 08544, United States, ⁹Uppsala University, 752 36 Uppsala, Sweden, ¹⁰University of Texas Health Science Center-San Antonio, San Antonio, Texas 78229-3900, United States, ¹¹EMBL-EBI, Hinxton, Cambridgeshire, CB10 1SD, United Kingdom, ¹²Memorial Sloan Kettering Cancer Center, New York, New York, 10065, United States, ¹³Monash University, Clayton VIC 3800, Australia, ¹⁴BGI Group, Shenzhen 518083, China, ¹⁵University of California, San Diego, La Jolla, California 92093, United States, ¹⁶National Taiwan University, Academia Sinica, Nankang, Taipei 11529, Taiwan, ¹⁷Westlake University Guomics Laboratory of Big Proteomic Data, Hangzhou 310024, Zhejiang Province, China, ¹⁸Institute of Molecular Systems Biology in ETH Zurich, 8092 Zurich, Switzerland

Table of Contents

- Supplementary Table 1. The 868 PE1 proteins WITHOUT mass spectrometry evidence from the PeptideAtlas-MassIVE-neXtProt pipeline
- Supplementary Table 2. MassIVE datasets with 10+ new proteins with MS evidence for this latest release
