Quadri. Evaluation of Preferred Language and Timing of COVID-19 Vaccine Uptake and Disease Outcomes. *JAMA Netw Open*. Published April 12, 2023.

doi:10.1001/jamanetworkopen.2023.7877

Data

Data available: No

Additional Information

Explanation for why data not available: The database constitutes almost the entire HealthPartners patient data and would include patients with unique identifiable information. We would be willing to share aggregate and de-identified data upon request.
