

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Orthogroups in lablab and other legumes

File Name: Supplementary Data 2

Description: GO annotation of lablab-specific gene clusters

File Name: Supplementary Data 3

Description: GO annotation of gene families expanded in lablab

File Name: Supplementary Data 4

Description: Details and sequencing statistics of resequencing samples

File Name: Supplementary Data 5

Description: Lablab accessions genotyped for genetic diversity study
