

## Description of Additional Supplementary Files

**File name: Supplementary data 1**

**Description:** Spread sheet of specimens, with references complementing the information of the diet stomach content. Also, indication if substitute species used when information of stomach content was not available. Associated information for averaging the raw landmark coordinates by species.

**File name: Supplementary data 2**

**Description:** Spread sheet of percentages values of prey items by species derived from the values obtained from the literature cited in supplementary data 1.

**File name: Supplementary data 3**

**Description:** Associated classifiers (factors) used for the analyses for every species after averaged landmarks. These are used in conjunction with the landmark data averaged values for each species.
