

**Supplementary Figure S2. Overall survival (interim) and progression-free survival in patients ≥70 years**

Panel A shows the Kaplan-Meier estimate of OS in patients ≥70 years. Panel B shows the Kaplan-Meier estimate for PFS as assessed by investigator in patients ≥70 years.

Abbreviations: Axi-cel, axicabtagene ciloleucel; HR, hazard ratio; NE, not evaluable; OS, overall survival; PFS, progression-free survival; SOC, standard of care.
