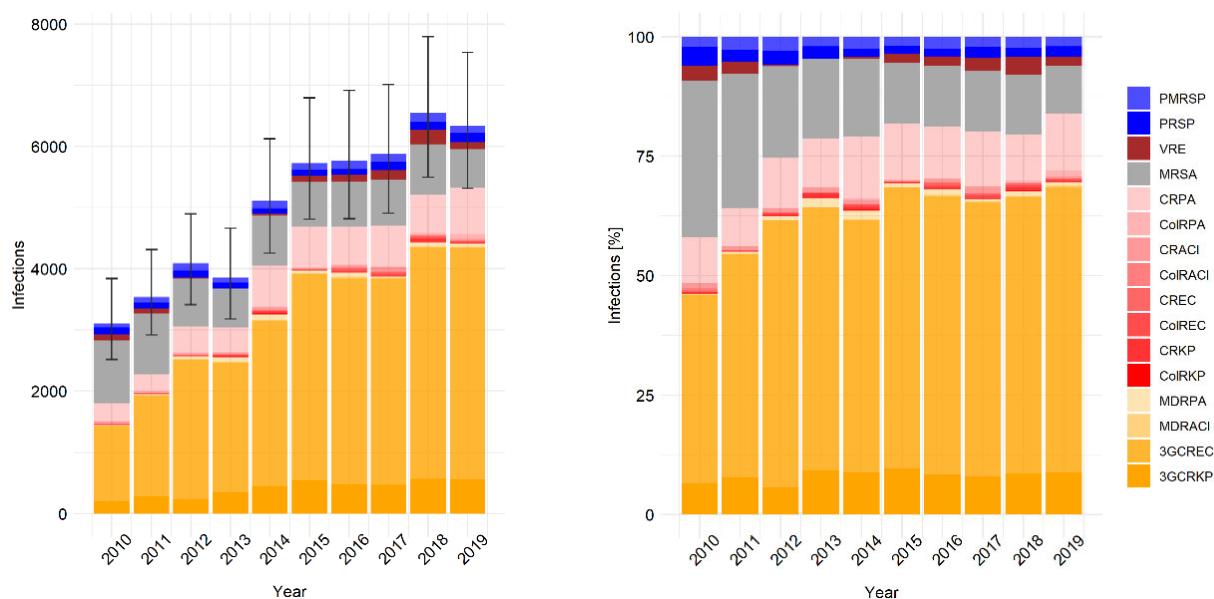

Figure S1: Infections with antibiotic-resistant bacteria in Switzerland from 2010 to 2019. Absolute values are shown on the left panel, relative contributions (%) of individual antibiotic resistant bacteria on the right panel. Data which were stratified according to the linguistic region and the hospital type were aggregated for these estimations. The 95% uncertainty intervals of the yearly totals are shown as black bars. ColRACI=colistin-resistant *Acinetobacter* spp. CRACI=carbapenem-resistant *Acinetobacter* spp. MDRACI=multidrug-resistant *Acinetobacter* spp. VRE=vancomycin-resistant *Enterococcus faecalis* and *Enterococcus faecium*. ColREC=colistin-resistant *Escherichia coli*. CREC=carbapenem-resistant *E. coli*. 3GCREC=third-generation cephalosporin-resistant *E. coli*. ColRKp=colistin-resistant *Klebsiella pneumoniae*. CRKP=carbapenem-resistant *K. pneumoniae*. 3GCRKP=third-generation cephalosporin-resistant *K. pneumoniae*. ColRPA=colistin-resistant *Pseudomonas aeruginosa*. CRPA=carbapenem-resistant *P. aeruginosa*. MDRPA=multidrug-resistant *P. aeruginosa*. MRSA=meticillin-resistant *Staphylococcus aureus*. PRSP=penicillin-resistant *Streptococcus pneumoniae*. PMRSP=penicillin-resistant and macrolide-resistant *S. pneumoniae*.

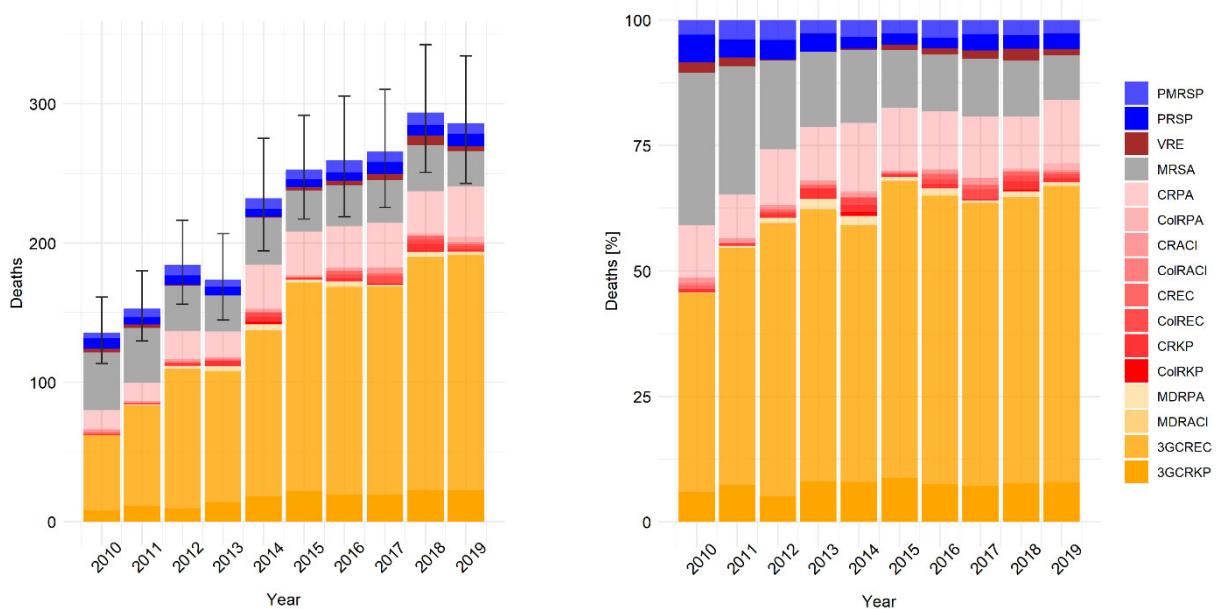

Figure S2: Deaths caused by infections with antibiotic-resistant bacteria in Switzerland from 2010 to 2019. Absolute values are shown on the left panel, relative contributions (%) of individual antibiotic resistant bacteria on the right panel. Data which were stratified according to the linguistic region and the hospital type were aggregated for these estimations. The 95% uncertainty intervals of the yearly totals are shown as black bars.

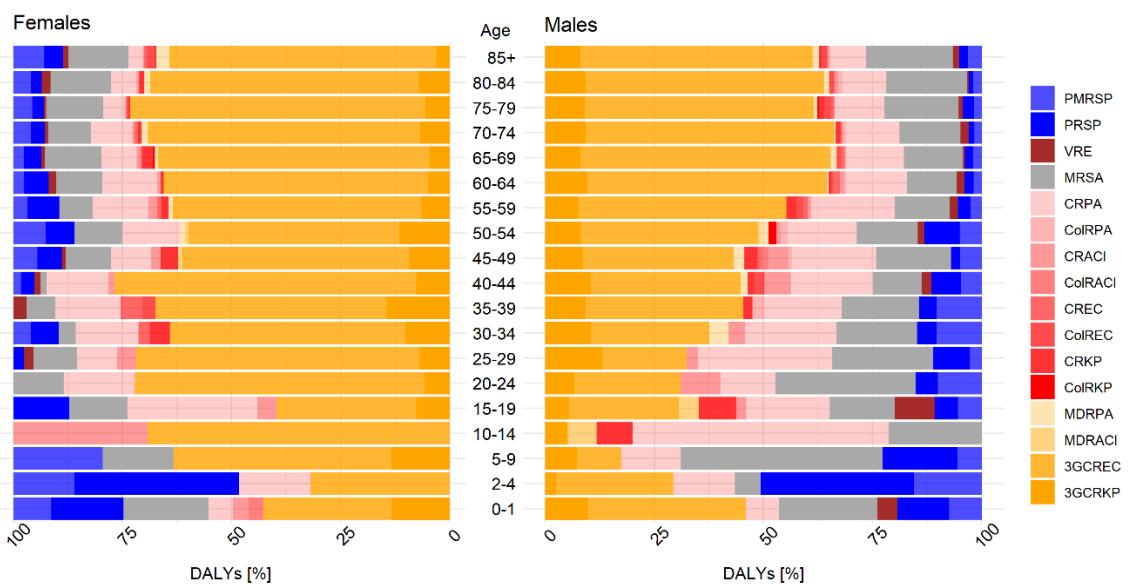

Figure S3: Proportions of DALYs in Switzerland (2010-2019) stratified the sex and age.

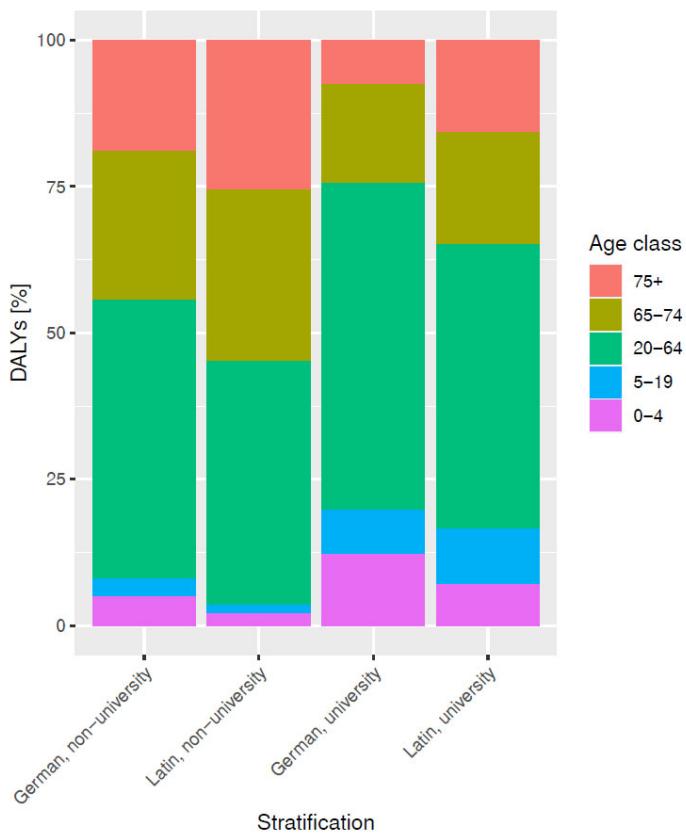

Figure S4: Age-specific DALYs distributions stratified by linguistic region and hospital type, Switzerland, 2010-2019.

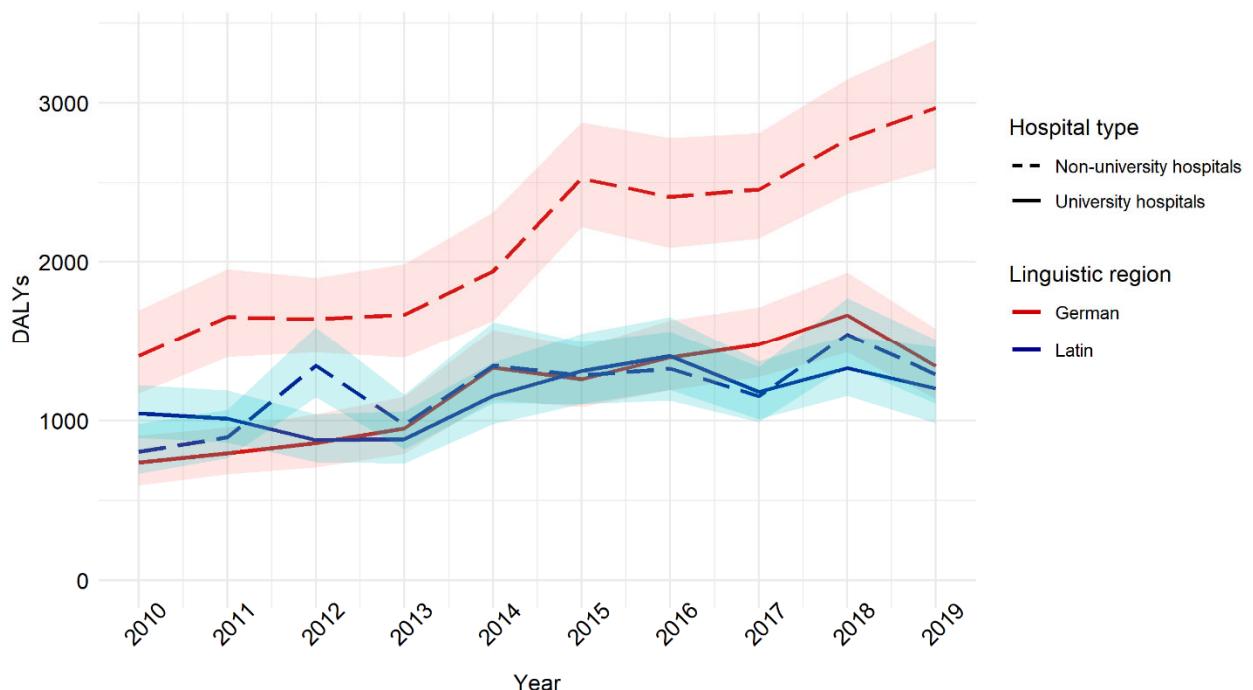

Figure S5: Model estimates of the burden of infections with antibiotic-resistant bacteria of public health importance in DALYs by linguistic region and hospital type, Switzerland, 2010-2019. The 95% uncertainty intervals are depicted by semi-transparent ribbons.

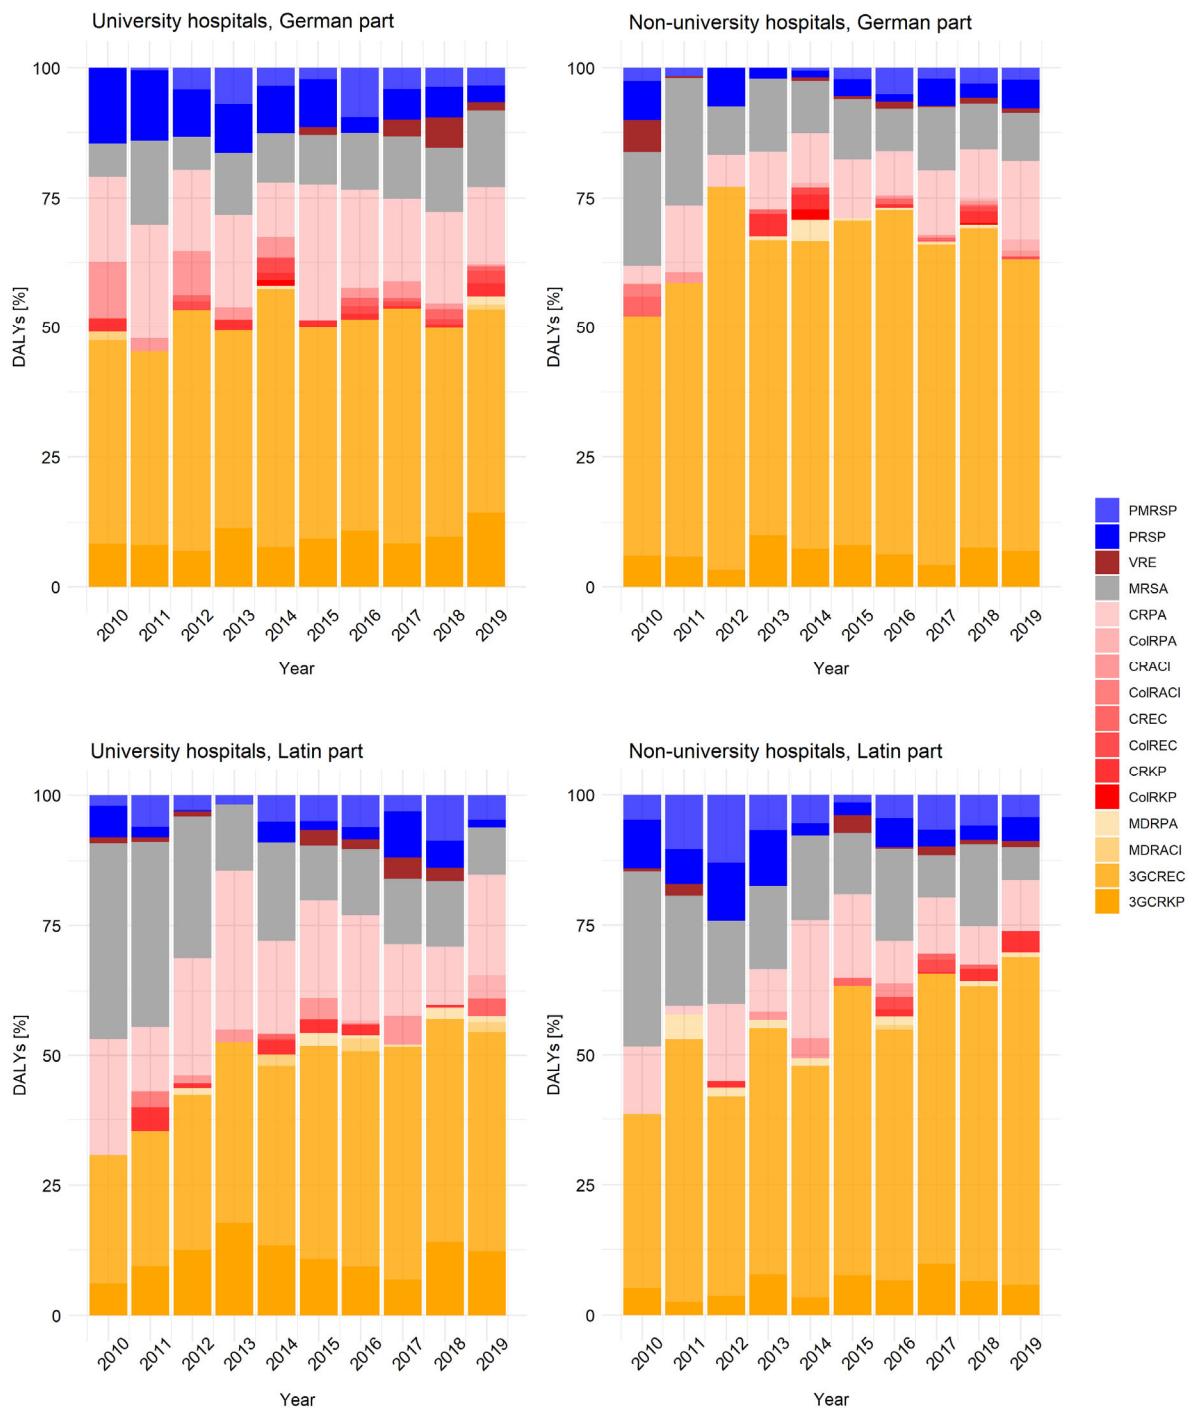

Figure S6: Proportions of DALYs in Switzerland (2010-2019) stratified by the linguistic region and the hospital type (university versus non-university hospitals).

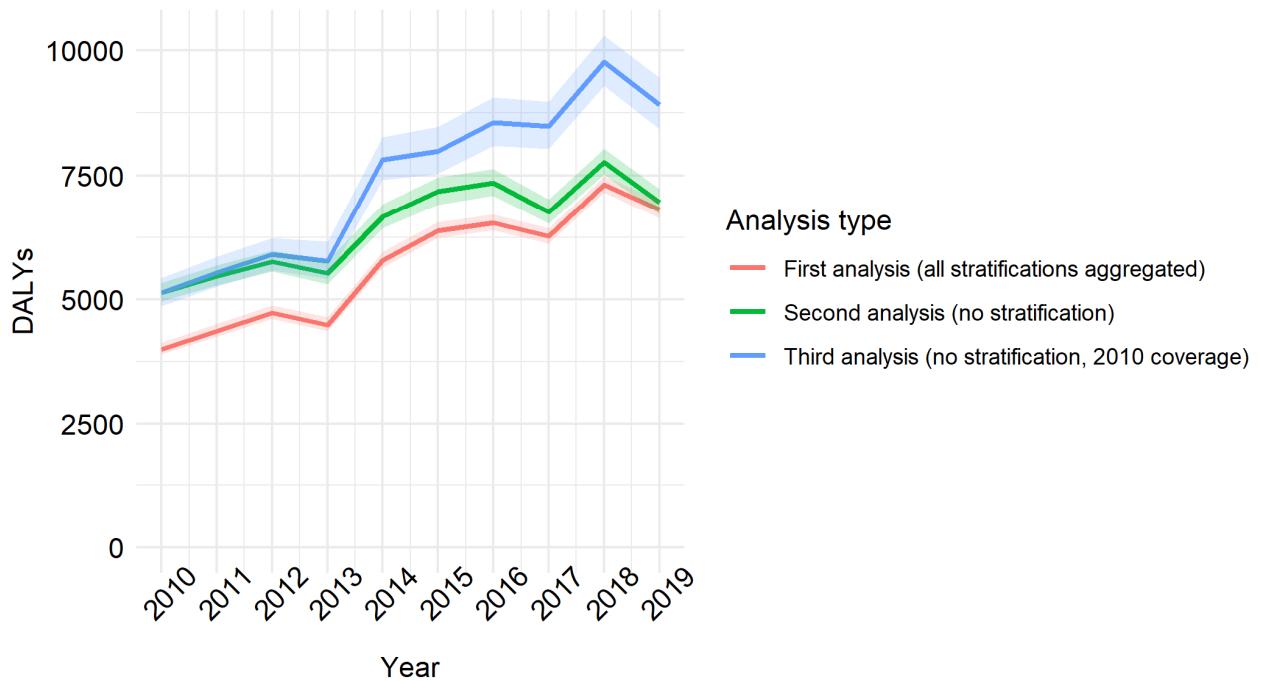

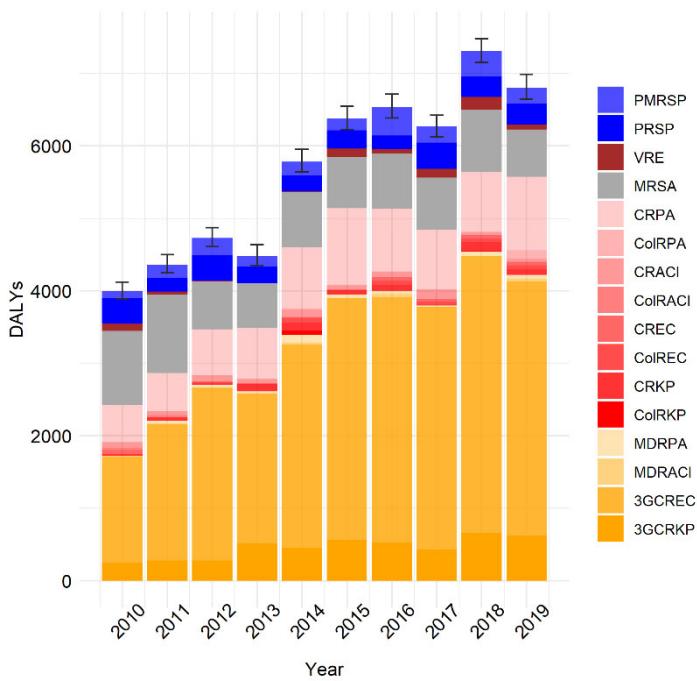

Figure S7. Representation of Figures 1A (upper panel) and 5 (lower panel) of the main manuscript using an approach assuming no correlation between sampled values when aggregating 95% uncertainty intervals of different distributions. The 95% uncertainty intervals are depicted by black bars and semi-transparent ribbons respectively.

Table S1. Yearly hospitalisation days of hospitals providing data to ANRESIS ("Hospitalisation days covered"), hospitals nationwide ("Hospitalisation days total"), and coverage rates stratified by the hospital type and the linguistic region.

Year	University						Non-university					
	German			Latin			German			Latin		
	Hospitali-sation days covered	Hospitali-sation days total	Cover-age	Hospitali-sation days covered	Hospitali-sation days total	Cover-age	Hospitali-sation days covered	Hospitali-sation days total	Cover-age	Hospitali-sation days covered	Hospitali-sation days total	Cover-age
