When available: With publication

Additional Information

Who can access the data: The VSD data sharing program is administered by the National Center for Health Statistics Research Data Center (NCHS RDC). VSD data created before 2000 are available through the data sharing program for new vaccine safety studies for analyses at the RDC Datasets from published VSD studies from 2002 to the present may be accessed for secondary analyses at the RDC The VSD data sharing program is a three-step process: Submission of proposals to NCHS RDC Submission of proposal to VSD participating sites' Institutional Review Boards (IRBs) Access to VSD data The VSD data available through this data sharing program can only be accessed at the NCHS RDC. Specific details for this program can be found at 'Guidelines for VSD Data Sharing'

Types of analyses: For evaluation of vaccine safety

Mechanisms of data availability: After approval of a proposal

Any additional restrictions: As above
