

Supplementary Figure S1. The results of SDS-PAGE

This is the original pictures of gels/blots of SDS-PAGE as a sample file. This file includes some bands for attached protein on the surface of carboxylated DLC (O2-DLC). O2-DLC is not a topic of this manuscript, therefore we excluded bands of O2-DLC for Figure 4 of this manuscript. Band 1 is the band of the marker in both set 1 and set 2.
