

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tlcr-22-818">https://dx.doi.org/10.21037/tlcr-22-818</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Survival data and unidentifiable patient baseline characteristics information.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	At the publication date.
6	When will data availability end?	One year after publication since the survival data may be updated over time.
7	To whom will you share the data?	Researchers within the field of NSCLC and immunotherapy research.
8	For what type of analysis or purpose?	Biomarker studies or meta-analyses.
9	How or where can the data/documents be obtained?	By contacting the corresponding author Boe Soerensen at boesoere@rm.dk
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
