

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: Genotyping, Phenotyping and analysis description per cohort

File name: Supplementary Data 2

Description: Participant descriptions per cohort

File name: Supplementary Data 3

Description: Regional plots for all GWS loci

File name: Supplementary Data 4

Description: Lookup of all known independent markers associated with bone phenotypes.

File name: Supplementary Data 5

Description: GARFIELD analyses, source data for Figure 2

File name: Supplementary Data 6

Description: DEPICT enrichment analyses, source data for Figure 3b.

File name: Supplementary Data 7

Description: Relevance of SK-BMD implicated genes across mice and human datasets.
