

Birth Includes Us content validation survey

Please complete the survey below.

Thank you!

Dear Expert Reviewer:

Thank you for taking the time to go through the Birthing Includes Us survey.

Please complete the following questions so that we can learn from your experience of participating, and help others to participate easily. We will consider all feedback and make changes as necessary to improve this online survey, or inform future studies.

This review is to make sure that the questions work well, how long it takes, and if the online tool is easy to use. We will analyze your answers to the mini survey about how it worked as a group of comments, without linking them to your names or other personal information.

We do not plan to analyze or report on information about your pregnancy that you may have provided, and that information will be deleted. If you would like to have your story and information included in the full study, you will need to fill out the final survey when it is available later in 2021.
