

Supplementary Figure S2

Supplementary Figure S2. Overall study diagram

Disposition of patients from the Strata Trial (NCT03061305) with clinical and molecular data in the Strata Clinical Molecular Database (SCMD) used herein to validate IRS in across clinically relevant cohorts (anti-PD-[L]1 monotherapy [mono] validation cohort, **Fig 1**; PD-L1 IHC cohort, **Fig 2**; self-reported race anti-PD-[L]1 mono validation cohort, **Fig 3**; anti-PD-(L) and/or chemotherapy [chemo] validation cohort, **Fig 4**) shown. Included populations (with the number of included patients) are indicated by gray boxes; excluded populations and reasons for exclusion are shown in white boxes. Patients can be shared across the four cohorts but are not indicated.
