

Data Sharing Statement

Chen. Group vs Individual Prenatal Care and Gestational Diabetes Outcomes. *JAMA Netw Open*. Published August 29, 2023. doi:10.1001/jamanetworkopen.2023.30763

Data

Data available: Yes

Data types: Deidentified participant data, Data dictionary, Other (please specify)

Additional Information: Deidentified study data will be available publicly on the NICHD/DASH Data and Specimen Hub (<https://dash.nichd.nih.gov/>) in October 2026, five years after study completion. Prior to that time, researchers with a methodologically sound proposal can direct inquiries to amy.crockett@prismahealth.org to gain access to the study protocol, informed consent forms, deidentified data, data dictionaries and the analytic plan. Requestors will need to sign a data access agreement.

How to access data: By request.

When available: beginning date: 10-01-2026

Supporting Documents

Document types: None

Additional Information

Who can access the data: Researchers whose proposed use of the data has been approved

Types of analyses: None

Mechanisms of data availability: After approval of a proposal, or with a signed data access agreement
