

Title: Supplementary Data 1

Description: Gene expression in each cluster of all integrated scRNA-seq samples

Title: Supplementary Data 2

Description: Gene expression in each fibroblast cluster compared to all other fibroblasts

Title: Supplementary Data 3

Description: Gene expression in each CAF cluster.

Title: Supplementary Data 4

Description: Representative marker genes for cSCC-related CAFs.

Title: Supplementary Data 5

Description: Gene expression in each BCC fibroblast cluster.

Title: Supplementary Data 6

Description: Gene expression in each BCC CAF cluster (high expression of FAP, ACTA2 & cSCC-related CAF marker genes).
