Supplemental Digital Appendix 2

Comparison of Research Support Services Identified by a Review of the Websites of Departments of Internal Medicine Ranked From 31 to 75 (Based on the 2021 Blue Ridge Institute for Medical Research Analysis of Total National Institutes of Health Funding Awarded), Research Initiative Supporting Excellence at the University of Cincinnati, University of Cincinnati College of Medicine Department of Internal Medicine

Websites of departments of internal medicine ranked 31 to 75 were surveyed for research support mechanisms provided by the departments. Thirteen of forty-five (29%) had an organizational structure that was similar to the Academic Research Services and only five (11%) had an individual identified as a “grant writer.” Website data may undercount actual staffing and support provided by the surveyed departments.
