

Description of Additional Supplementary Files document

Supplementary Data 1 - Expression of known genes characterizing different niche cell populations and hematopoietic regulators

Supplementary Data 2 - Differentially expressed genes between IgG and GPIba CBM-EC and BL-EC cells

Supplementary Data 3 - Differentially expressed genes between IgG and GPIba CBM-PV and BL-PV cells

Supplementary Data 4 - Differentially expressed genes between IgG and GPIba BL-P α S, BLOBP and BL-OB cells

Supplementary Data 5 - Gene ontology analysis on genes differentially expressed in CBM-PV and CBM-EC

Supplementary Data 6 - Differentially expressed genes between IgG and GPIba Vwf+ HSCs

Supplementary Data 7 - Differentially expressed genes between IgG and GPIba Vwf- HSCs

Supplementary Data 8 - Gene ontology analysis on genes differentially expressed only in VWF+ HSCs
