Appendix Table 3. Themes and their complete descriptions in the study codebook

	Themes and their complete descriptions in the study codebook
Pro-tax themes	Description (ARA)
Unethical actions of	• Unethical (e.g., deceptive) tactics of the American Beverage Association (ABA)
"Big Soda"	and soda industry or expressed distrust of what Big Soda says.
	Targeted marketing: Big Soda's preferential marketing to children, and children
	of color particularly, and communities of color.
	Comparisons of the soda industry to the tobacco industry.
Health	Child health and diet-related conditions: Epidemics of obesity or diabetes,
	children increasingly suffering from diet-related conditions, implications of
	these conditions for the lifecourse, and racial/ethnic or income disparities in
	these conditions.
	Health risks of sugar-sweetened beverage (SSB) consumption: Citing research
	on the health harms of SSBs, liquid sugar, or the primary ingredient in SSBs—
1110	sugar.
Healthcare costs	Costs borne by society from negative health effects of SSB consumption (e.g.,
	burden of healthcare costs on society, cost-savings of improving health, lost
- .,	productivity costs, and cost effectiveness of SSB taxes or projected savings.
Equity	Health disparities: Differences in diet-related health outcomes (e.g., diabetes,
	obesity, heart disease) or SSB consumption by race or ethnicity, nationally or
	locally; unequal access to healthy activities or health services.
	Health equity or racial and social justice: Mentioned explicitly, evening the
Funding honofite	playing field, and offering opportunities to promote justice and/or equity.
Funding benefits	(Potential) benefits from SSB tax revenue allocations, including opportunities to
	lessen health disparities and offer equitable programming for lower-income
Efficacy	children and families. In 2018, programs funded by the Health Equity Fund.
Efficacy	Examples of SSB tax efficacy elsewhere (e.g., Berkeley, Mexico) or of other
Clarity	excise taxes (e.g., tobacco) on consumption.
	Rebuttal to the argument that the measure is confusing or difficult to implement.
Not regressive	Rebuttal to the argument that the SSB tax is regressive or arguing that an SSB
Not a gracery toy	tax is progressive or not regressive.
Not a grocery tax Community	Rebuttal to the argument that the tax amounts to a grocery tax. Benefits, brings together (e.g., funding in 2018), or is the right message for the
Community	Boulder community (i.e., tax sends the message that SSBs are unhealthy, and
	this is the type of community residents want that values health and equity for all).
Anti-tax themes	this is the type of community residents want that values health and equity for all).
Unnecessary	Boulder is already a healthy place, everyone already knows SSBs are unhealthy.
Government	Government overreach (e.g., nanny state, not the role of government to tell
overreach	people what to buy, paternalism) or slippery slope (e.g., will lead to
Overreacii	taxing/banning other things like ice cream).
Responsibility	Personal choice/responsibility to choose what to eat or drink, parental authority
responsibility	(e.g., it should be up to parents to decide what to feed their children).
SSB tax does not	SSB taxes do not work to reduce consumption; the tax is not doing what it is
work	supposed to (e.g., tax revenues in first year and higher than expected tax
WOIK	revenues indicate the tax is not working to reduce consumption).
Economic	The tax hurts local business (e.g., there is already too much regulation in
LCOHOTTIC	Boulder), will cause people to shop outside of Boulder, or results in a personal
	cost burden if it makes a preferred SSB too expensive.
Regressive	The tax will be paid by and add additional burden to poor families.
Confusing or	Confusing: The measure is poorly written, confusing to businesses.
burdensome to	The measure did not have a TABOR provision, which ABA argued it needed.
implement	Business uncertain about how will affect them (e.g., because it is vague).
piomont	Implementation challenges: Consumers were charged for the cost of the tax
	when they should not have been, burden on businesses to implement.
	Boulder City government is not capable of managing or implementing.
Kombucha	The tax hurts kombucha businesses, which make lower or natural sugar drinks.
	1 tar in the hembasia basinesses, which make lower of natural sugar units.

Pro-tax themes	Description
Grocery tax	The tax amounts to a grocery tax and will raise the price of all groceries. (The anti-group had "grocery tax" in its name. If only the name was mentioned, it was not coded.)
Neutral themes	
Politics	What the two campaigns are doing or how those actions interacts with the city government and courts (e.g., signature collection campaign, push polling, getting businesses to sign for support, role of city council in putting the measure on the ballot, wording of the measure, recommendations from city lawyer, description of Healthy Boulder Kids, ABA creation of the anti-campaign).
Campaign financing	How campaigns were financed, by whom, where money came from, and the fact that the campaign was the most expensive in city history.
Colorado's	Legality of the measure within Colorado tax law (ABA challenged in court leading
Taxpayer Bill of	up to ballot). In 2018, what would happen if the money were given back, why the
Rights (TABOR)	measure was challenged, and whether an excise tax is legal.

ABA—American Beverage Association; SSB—sugar-sweetened beverage; TABOR—Taxpayer Bill of Rights
