Dear All,

Please respond to this email until tomorrow 12 noon. Needed is a reply confirming that you approve of the change: Matthias Bros has been added

Histone deacetylase inhibitors modulate horesis in leukemic cells with mutant FMS-like tyrosine kinase-3

It has come to our attention that your current author list has changed since your initial submission: Matthias Bros has been added.
To confirm your revised author list, we require agreement from all co-authors. To provide this agreement, please email all authors and ask them to reply confirming that they approve of the change. Please combine screenshots of all responses into a single PDF file, and upload this with your submission. Please name this file "Authorship Change Approval", and use the "Related Manuscript File" file type.

Best wishes!
