<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	Demographics characteristics, survival data, postoperative outcomes
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Protocol is open access. It has been already published. We cited it in bibliography.
5	When will data availability begin?	Two years within the publication date, since the technique or survival data may be updated over time.
6	When will data availability end?	Will be updated over time.
7	To whom will you share the data?	Other investigators in field.
8	For what type of analysis or purpose?	Scientific purpose, follow up analysis.
9	How or where can the data/documents be obtained?	Formal request to corresponding author. Email: victor.bautistahernandez@bcm.edu
10	Any other restrictions?	If any person required data access, request would be assessed by RADAR registry directors. We may balance the potential benefits and risks for each request and then provide the data that could be shared.
