Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data about the effect of tryptanthrin on angiogenesis, Dll4 gene regulation in zebrafish, transcriptome sequencing and fluorescence quantitative verification of the Dll4 gene pathway will be shared particularly.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, data analysis and study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or data may be updated over time.
7	To whom will you share the data?	Medical oncologists who are interested in studies of tryptanthrin.
8	For what type of analysis or purpose?	For analysis to explore the antiangiogenesis activities and associated mechanisms of tryptanthrin.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: lmm13645015310@163.com or saiun1992@163.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
