Table of Contents

Supplementary figure 1. Diagram of exclusions.	2
Supplementary figure 2. Survival plot for development of referable diabetic retinopathy fitted with interval censoring and the Turnbull estimator stratified by baseline diabetic retinopathy grade and age..	3
Supplementary table 1. Sight-threatening diabetic retinopathy events in ethnic groups by baseline diabetic retinopathy grade at baseline.	4
Supplementary table 2. Incidence rate of sight-threatening-diabetic-retinopathy per 100 person-years by follow-up period (95% confidence intervals).	5
Supplementary table 3. Sensitivity analysis using incidence rate of referable diabetic retinopathy per 100 person-years by follow-up period defined by 95% confidence intervals. Excluding people from the earliest 2 years of study period (see table 3 of our manuscript for comparison).	6
Supplementary table 4. Incidence rates of any diabetic retinopathy (people with R0M0 at first screen, n = 107,701) and sight-threatening diabetic retinopathy (people with R0M0 and R1M0 at first screen, n = 137,591) per 100 person-years by ethnic group.....	7
Supplementary table 5. Cumulative incidence rate of any diabetic retinopathy per 100 person-years by follow-up (95% confidence intervals).	8
Supplementary table 6. Semi-parametric multivariable Cox proportional hazards model for interval censored data. Hazard ratios (HR) are mutually adjusted for all factors shown in the table. HR greater than 1 imply greater hazards for vision-threatening diabetic retinopathy (DR). Bold p-values show statistically significant results.	9
Supplementary table 7. Multivariable Cox proportional hazards model for right censored data with development of any diabetic retinopathy (DR) as outcome of interest. Hazard ratios (HR) are mutually adjusted for all factors shown in the table. HR greater than 1 imply greater hazards for DR. Bold p-values show statistically significant results.....	10

Supplementary figure 1. Diagram of exclusions.

Supplementary figure 2. Survival plot for development of referable diabetic retinopathy fitted with interval censoring and the Turnbull estimator stratified by baseline diabetic retinopathy grade and age.

Supplementary table 1. Sight-threatening diabetic retinopathy events in ethnic groups by baseline diabetic retinopathy grade at baseline.
