

Figure S5: Age-specific incidence of cancers in Arab countries. The ASIR for cancers at different age groups in Arab countries are summarized and compared to the ASIR at the same age groups for the World, USA and Europe. Arab countries are labelled as those in the Arabian Gulf (maroon), the Levant (green) and North Africa (blue). The world, USA and Europe in black font. Each cancer type is shown on a separate page in the following pages organized alphabetically. For all age groups please refer to Supplementary Data Tables S1 and S2.
