

Myocardial Recovery in Recent Onset Dilated Cardiomyopathy: Role of the *CDCP1* and Cardiac Fibrosis

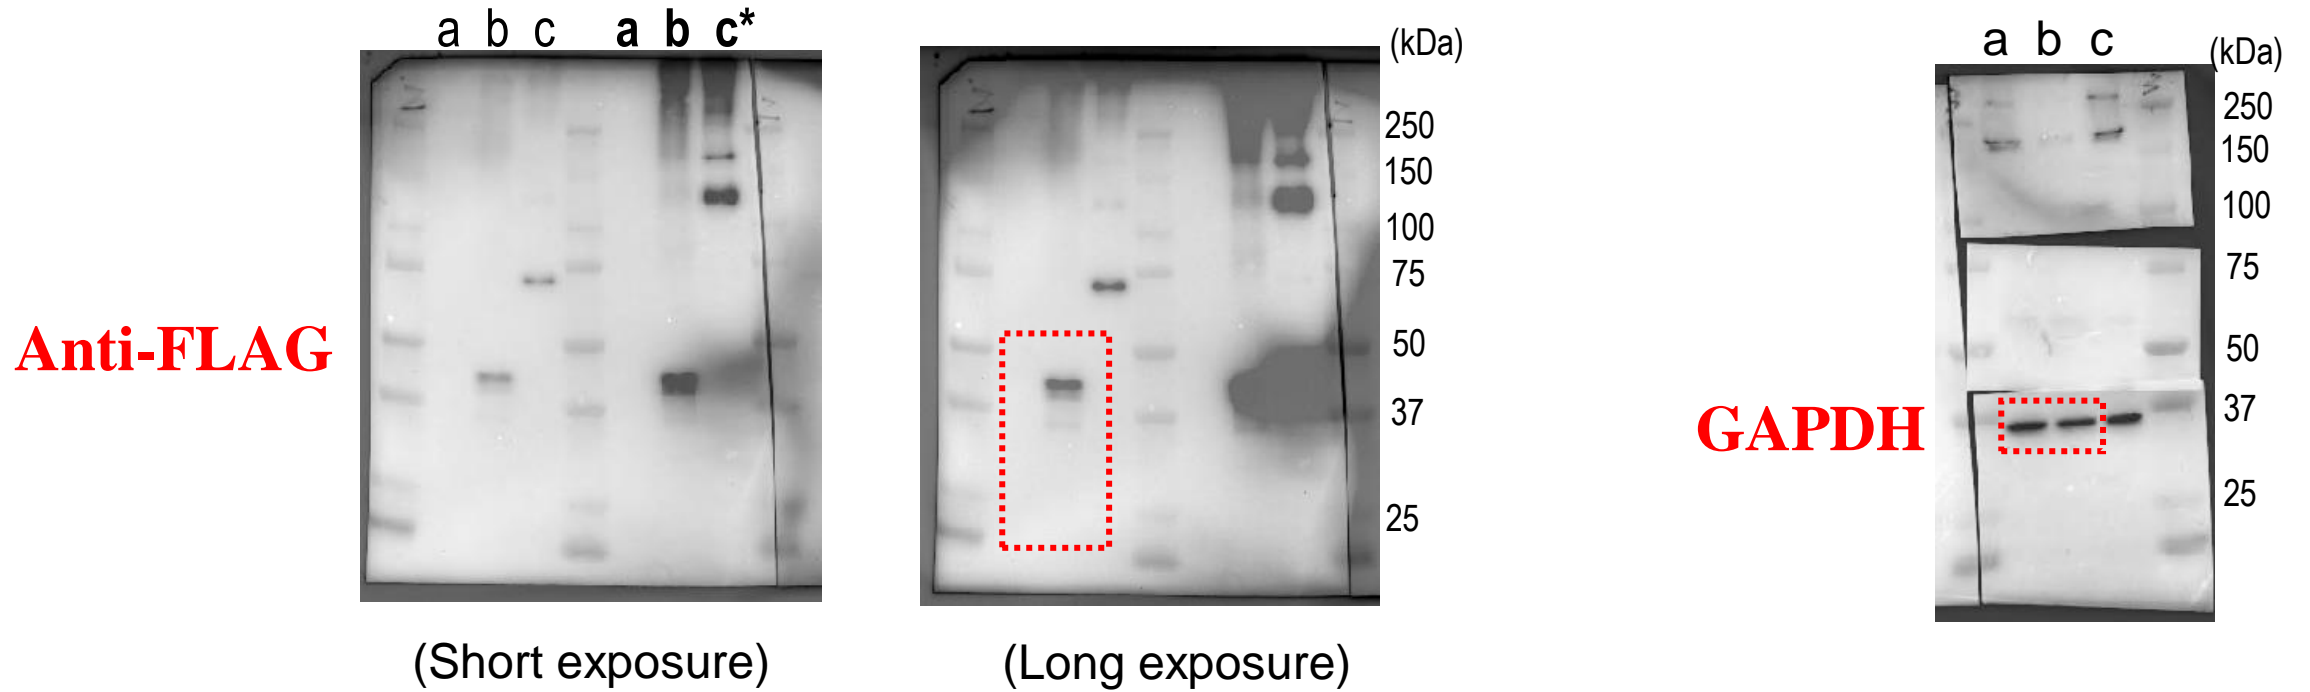

Original Western Blots (pre-cut)

Introduction

1. All Western blot pictures were obtained by using a **Bio-Rad ChemiDoc Touch Imaging System**.
2. On a same blot (PVDF membrane), **protein band** was visualized by **Chemiluminescence** picture, and **prestained protein marker** was visualized by **Colormetric** picture.
3. A Bio-Rad Precision Plus Protein Dual Color Standards (#1610374) was used in all blots in this study.
4. Chemiluminescence picture and Colormetric picture were **Merged** to show the size of band (see pictures below).
5. All pre-cut blots showing in subsequent slides are Merged pictures with **red-dashed box** to indicate cut blot that was presented in Figures. (see pictures below for example: red-dashed box corresponding to **Supplementary Figure S8A**)

Full unedited gel for **Figure 3C**

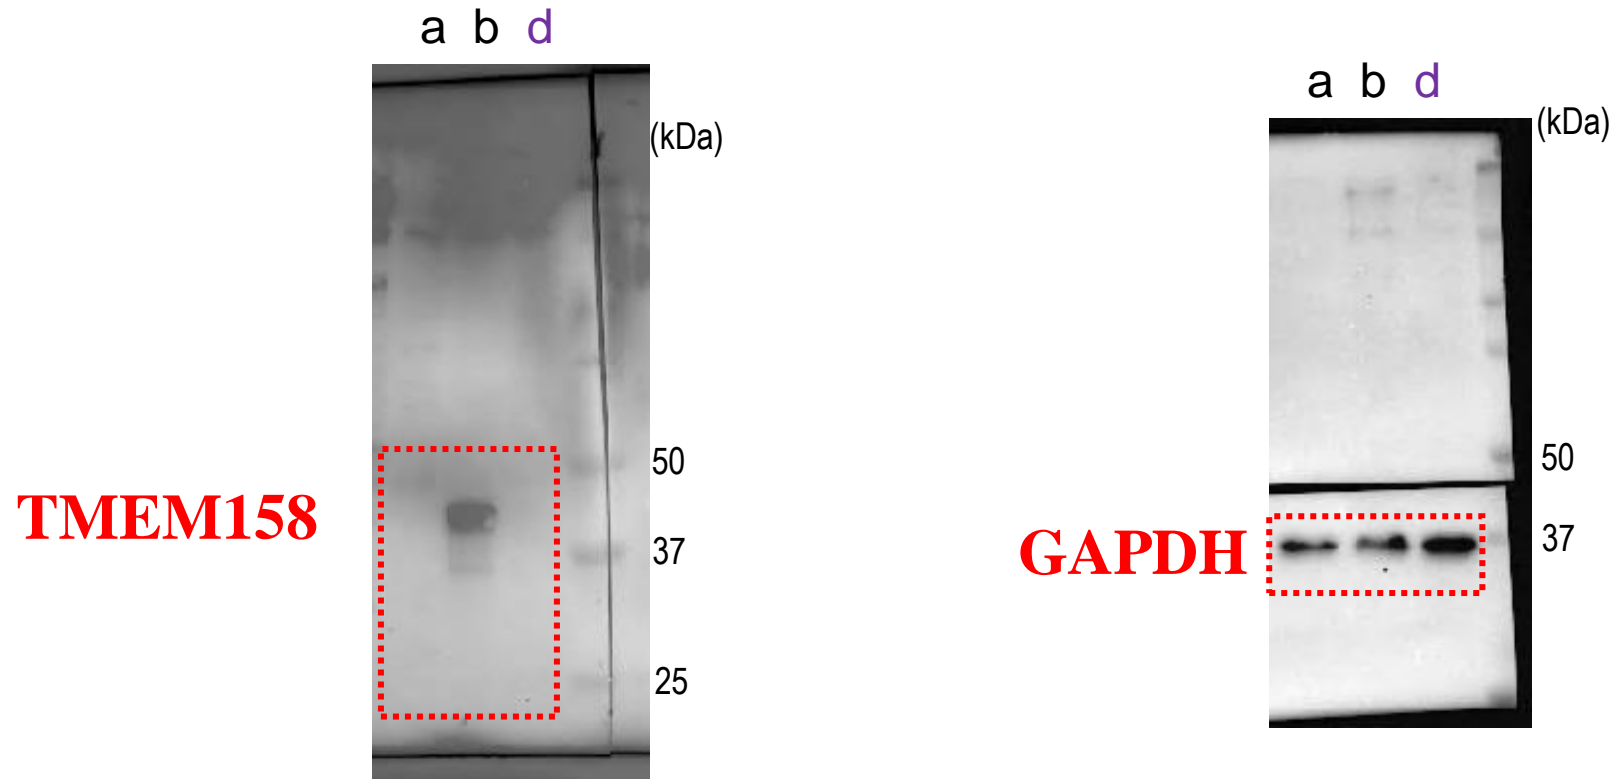

Sample info:

- a: EV
- b: OE (TMEM158-FLAG)
- c: OE (CDCP1-FLAG)

***a, b, c** in **bold** are same protein samples loaded 5X more in protein amount.

Full unedited gel for **Figure 3D**

Sample info:

a: EV

b: OE (TMEM158-FLAG)

d: HCFs

Full unedited gel for **Figure 4B**

CDCP1

GAPDH

Sample info:

a: Ctrl siRNA

b: siCDCP1 (KD)

***a, b** in **bold** are same protein samples with duplicate loading

Full unedited gel for Figure 4E

Sample info:

a: 0 hr (control treatment); **b:** 10 hrs; **c:** 24 hrs; **d:** 48 hrs

Full unedited gel for Figure 4J

Sample info:

- a:** Vehicle, CDCP1 KD-; **b:** Vehicle, CDCP1 KD +;
- c:** PDGF-BB, CDCP1 KD-; **d:** PDGF-BB, CDCP1 KD +;

Full unedited gel for Figure 5C

CDCP1

p-SMAD2

COL1A1

SMAD2/3

FN-1

α -SMA

GAPDH

Sample info:

a: Vehicle, CDCP1 OE-; **b:** Vehicle, CDCP1 OE+; **c:** TGF- β 1, CDCP1 OE-; **d:** TGF- β 1, CDCP1 OE+, (24hrs);
e: Vehicle, CDCP1 OE-; **f:** Vehicle, CDCP1 OE+; **g:** TGF- β 1, CDCP1 OE-; **h:** TGF- β 1, CDCP1 OE+, (72hrs);

Full unedited gel for **Figure 5E**

CDCP1

α -SMA

GAPDH

p-SMAD2

SMAD2/3

Sample info:

a: Vehicle, CDCP1 OE-; **b:** Vehicle, CDCP1 OE+; **c:** TGF- β 1, CDCP1 OE-; **d:** TGF- β 1, CDCP1 OE+, (0.5 hrs);
