

CARE Checklist of information to include when writing a case report

Title 1 The diagnosis or intervention of primary focus followed by the words "case report". Key Words 2 2 to 6 key words that identify diagnoses or interventions in this case report, including "case report". Abstract 3a Introduction: What is unique about this case and what does it add to the scientific literature?. Wain symptoms and/or important clinical findings. Conclusion—What is the main "lake-away" lesson(s) from this case? One or two paragraphs summarizing why this case is unique (may include references). Introduction 4 One or two paragraphs summarizing why this case is unique (may include references). Patient Information 5 De-Identified patient specific information. De-Identified patient specific information. Words Addied, Ifamily, and psycho-social history including relevant genetic information. Vortical Findings 6 Describe significant physical examination (PE) and important clinical findings. Virtual Biognostic 8a Diagnostic celling (such as PE, laboratory testing, imaging, surveys). Be Diagnostic hallenges (such as access to testing, financial, or cultural). Vortical and current information from this episode of care organized as a timeline. Therapeutic 9a Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care). Vorticare 9a Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care). Vorticare 9a Changes in therapeutic intervention (such as dosage, strength, duration). Vorticare 9a Changes in therapeutic intervention (such as pharmacologic, surgical, preventive, self-care). Vorticare 9a Changes in therapeutic intervention (such as obsage, strength, duration). Vorticare 9a Changes in therapeutic intervention (with rationale). Vorticare 9a Changes in t	Topic	ltem	Checklist item description	Reported on Line
Abstract 3a Introduction: What is unique about this case and what does it add to the scientific literature?	Title	1	The diagnosis or intervention of primary focus followed by the words "case report"	V
Abstract (no references) 3b Main symptoms and/or important clinical findings. The main diagnoses, therapeutic interventions, and outcomes. Introduction 4 One or two paragraphs summarizing why this case? Introduction 5 Primary concerns and symptoms of the patient. For Medical, family, and psycho-social history including relevant genetic information. For Medical, family, and psycho-social history including relevant genetic information. Clinical Findings 6 Describe significant physical examination (PE) and Important clinical findings. Clinical Findings 7 Historical and current information from this episode of care organized as a timeline 7 Historical and current information from this episode of care organized as a timeline 8b Diagnostic challenges (such as PE, laboratory testing, imaging, surveys). Therapeutic 9a Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care). Therapeutic 9a Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care). Follow-up and Outcomes 10a Chinician and patient-assessed outcomes (if available). Discussion 11a A scientific discussion of the strengths AND limitations associated with this case report. Vintervention 4 A scientific discussion of the strengths AND limitations associated with this case report. Vintervention 11d A scientific discussion of the strengths AND limitations associated with this case report. Vintervention 11d The patient should share their perspective in one to two paragraphs on the treatment(s) they received. Vintervences) 1 The patient should share their perspective in one to two paragraphs on the treatment(s) they received.
