

Suppl Table 1a. List of cause-specific death

Primary cause of death
<i>Cardiovascular-related</i>
Myocardial infarction, acute
Pericarditis, incl. cardiac tamponade
Atherosclerotic heart disease
Cardiomyopathy
Cardiac arrhythmia
Cardiac arrest, cause unknown
Valvular heart disease
Pulmonary edema due to exogenous fluid
Congestive heart failure
Stroke – hemorrhagic
Stroke – ischemic
<i>Infection-related</i>
Septicemia due to vascular access
Septicemia due to peripheral vascular disease, gangrene
Septicemia, other
Infections, other
Cardiac infection (endocarditis)
Pulmonary infection (pneumonia, influenza)
Abdominal infection (peritonitis; not complication of PD), perforated bowel, diverticular disease, gallbladder)
Genitourinary infection (urinary tract infection, pyelonephritis, renal abscess)

Suppl Table 1b. List of cause-specific hospitalization diagnosis/procedure

Cardiac/Cardiovascular	
<i>Diagnosis</i>	<i>Procedures</i>
Hypertension	Cardiac catheterization
Angina	Coronary angioplasty
Chest pain, MI ruled out	Coronary bypass graft (CABG)
Acute myocardial infarction (MI)	Valve repair or replacement
Cardiac arrest/sudden death	Cardioversion
Congestive heart failure	AICD (defibrillator) placement
Cardiomyopathy	Pacemaker placed
Valvular heart disease	Pericardial procedure
Atrial fibrillation	Other cardiac/cardiovascular
Other arrhythmia	Carotid endarterectomy
Pericarditis &/or tamponade	Evacuation of hematoma
Hypotension	Angiogram
Other cardiac/cardiovascular	Arterial bypass surgery
Transient ischemic attack (TIA)	Aortic aneurysm repair
Subdural hematoma	Wound debridement
Claudication/rest pain	Other
Ulcer of extremity	Coronary angiogram
Gangrene	Percutaneous Transluminal Angioplasty (PTA)
Aortic aneurysm	
Deep vein thrombosis	
Other vascular	
Stroke - hemorrhagic	
Stroke - ischemic	
Tachycardia	
Unstable angina	
Infectious Diseases	
<i>Diagnosis</i>	<i>Procedures</i>
Gastroenteritis	Abscess drainage
Pneumonia	Antibiotic therapy
Septicemia	Other
Endocarditis	
AIDS/HIV	
Urinary tract infection	
Wound infection	
Abscess	
Meningitis	
Cellulitis/soft tissue infection	
Osteomyelitis	
Viral infection	
Fungal infection	
Fever or chills, source unknown	
Other infectious diseases	
Bronchitis	

Pneumonia	
Cellulitis/skin infection
