

## **Description of Additional Supplementary Files**

File Name: Supplementary Data 1

Description: This file contains additional supplementary datasets to support the manuscript: 1. Model\_Data includes the input dataset used to calibrate the iSDG-Australia 2.0 system dynamics model; and 2. Model\_Projections\_2050 provides the model projections from 2020 to 2050 for the two modelled pathways across a range of key indicators (BBS=Build Back the Same Pathway and represents the baseline scenario; STP=Six Transformations Pathway).
