

Supplemental Figure 1.

CON Insulin Concentrations (μIU/mL) at 60 mins OST		
Baseline	ID	Treatment
29.483	141.701	127.866
13.773	71.381	72.139
50.439	330.515	372.718
66.516	271.43	415.193
41.923	137.88	169.534

Insulin concentrations measured at 60 minutes (mins) following an enteral carbohydrate as described in the oral sugar test (OST) at baseline (OST1), after 7 days of dexamethasone (ID), and after 7 days of dexamethasone and treatment (placebo).
