

Supplemental Table 1 Correlation between circulating GLP-1 and plasma glucose and insulin levels during 75 g OGTT.

OGTT minute	GLP-1 and PG		GLP-1 and insulin	
	rho	p-value	rho	p-value
0	0.01	0.86	0.13	0.07
30	0.31	<0.0001	0.20	0.004
60	-0.03	0.65	0.02	0.80
90	-0.14	0.053	-0.07	0.30
120	-0.17	0.017	-0.07	0.36

GLP-1 levels were correlated with plasma glucose (PG) and insulin concentrations during 5-point OGTT using Spearman coefficient in post-GDM women.
