

Supplemental information

**Evaluation of cerebrovascular reactivity
in moyamoya disease using oxygen-dependent
magnetic resonance imaging**

**Shihao He, Xilong Wang, Hongchuan Niu, Ziqi Liu, Junze Zhang, Xiaokuan Hao, Yanru
Wang, Zhenyu Zhou, Yuanli Zhao, and Rong Wang**

Supplemental Information

Table S1 Statistical results before introducing covariates between patients with

Moyamoya disease and healthy controls, related to Figure 1.

	Region	P value after FDR correction	t ratio	q value
RA Ah	Right anterior cerebral artery hemisphere	<0.000001	6.996	<0.000001
LA Ah	Left anterior cerebral artery hemisphere	<0.000001	7.103	<0.000001
RM Ah	Right middle cerebral artery hemisphere	<0.000001	9.08	<0.000001
RPA h	Right posterior cerebral artery hemisphere	0.000017	5.073	0.00001
LPA h	Left posterior cerebral artery hemisphere	<0.000001	6.385	<0.000001
LM Ah	Left middle cerebral artery hemisphere	<0.000001	11.97	<0.000001
RA Ac	Right anterior cerebral artery callosal	0.000091	4.494	0.000041
LA Ac	Left anterior cerebral artery callosal	0.000015	5.125	0.00001
Rma LL	Right middle cerebral artery lateral lenticulostriate	0.000456	3.92	0.000184
LM All	Left middle cerebral artery lateral lenticulostriate	0.000035	4.833	0.000017
