

Description of Additional Supplementary Files

File: Supplementary Data File 1

Description: Patient characteristics stratified by COVID-19 severity

File: Supplementary Data File 2

Description: Patient characteristics in RNAseq subcohort

File: Supplementary Data File 3

Description: Patient characteristics stratified by SARS-CoV-2-variant driven pandemic phase at time of hospitalization

File: Supplementary Data File 4

Description: Patient characteristics stratified by cluster-derived COVID-19 Response Signatures

File: Supplementary Data File 5

Description: Patient characteristics in influenza and non-influenza severe acute respiratory infection (SARI) cohort
