

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tlcr-23-407	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes – upon request
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Deidentified data will be shared upon request in accordance with local regulations. In particular, our data set includes reasons for not receiving guideline-concurrent treatment which is not commonly included in other data sets.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plans, IRB approvals and analytic codes will be shared upon request.
5	When will data availability begin?	At request.
6	When will data availability end?	Within two years of the publication date.
7	To whom will you share the data?	Researchers interested in lung cancer treatment and outcomes.
8	For what type of analysis or purpose?	Evaluation of disparities in lung cancer treatment and outcomes.
9	How or where can the data/documents be obtained?	Emails should be sent to the corresponding author: crufatto@iu.edu
10	Any other restrictions?	Data will be deidentified. Sharing of certain data may be limited by institutional, state and local IRB policies. We may balance the potential benefits and risks for each request and then provide the data that could be shared.
