

Supplementary Figure 1: Data availability. The heatmap at the top shows the spread of epoch numbers on the y-axis for which data was available for the corresponding number of days on the x-axis for all individuals. The histogram at the bottom shows the number of days of data availability for the participants. The y-axis shows the number of participants for whom data with >40 epochs is available for the corresponding number of days on the x-axis.

Supplementary Figure 2: Flow chart of the inclusion and exclusion criteria
