### Data

**Data available:** No

### Additional Information

**Explanation for why data not available:** Due to US Department of Veterans Affairs (VA) regulations and our ethics agreements, the analytic datasets used for this study are not permitted to leave the Million Veteran Program (MVP) research environment and VA firewall. This limitation is consistent with other MVP studies based on VA data. However, the MVP data are made available to researchers with an approved VA and MVP study protocol. The UK Biobank data is available through the UK Biobank Showcase for researchers with approved projects.
