

LARP4A siRNA knockdown After 7 days
Fig. S2A

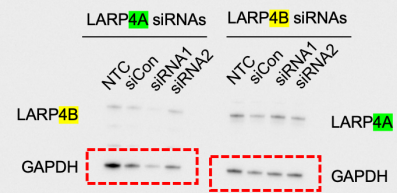

LARP4B siRNA knockdown After 7 days
Fig. S2B

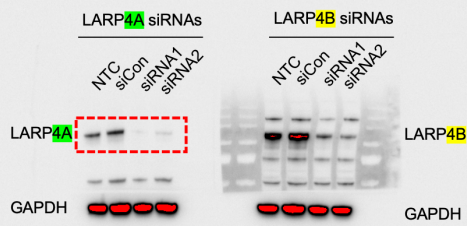

MG63: Probing for LARP4A in LARP4B knockouts and vice versa – Blot 1 higher exposure

MG63 : Probing for LARP4A in LARP4B knockouts and vice versa – Blot 1 lower exposure

MG63 : Same samples, new gel to probe for LARP4A in LARP4A siRNAs and vice versa – blot 2 higher exposure

MG63 : Same samples, new gel to probe for LARP4A in LARP4A siRNAs and vice versa – blot 2 lower exposure
