All Sites	249	14.1	6.8	6.4	4.4	14.1	4	4.4	2	15.7	14.5	7.6	6

Other includes service delivery issue and heard vaccine may cause harm from religious leader.

Table is restricted to children whose caregivers reported being aware of the campaign. When asked why the child had not received the MR campaign dose in a subsequent question some caregivers indicated lack of knowledge about the campaign as the reason. This may have included situations where the caregiver was aware of the campaign but was not aware of the logistics such as when or where to have their child vaccinated.
