

ABL1 mRNA expression

ACC – Adrenocortical carcinoma

BRCA – Breast Invasive

CHOL – Cholangio carcinoma

DLBC – Lymphoid Neoplasm Diffuse Large B-cell Lymphoma

GBM – Glioblastoma multiforme

KICH – Kidney Chromophobe

KIRP – Kidney renal papillary cell carcinoma

LGG – Brain Lower Grade Glioma

LUAD – Lung adenocarcinoma

OV – Ovarian serious cystadenocarcinoma

PCPG – Pheochromocytoma and Paraganglioma

READ – Rectum adenocarcinoma

SKCM – Skin Cutaneous melanoma

TGCT – Testicular Germ Cell Tumour

THYM – Thymoma

UCS – Uterine Carcinosarcoma

Figure S13. ABL1 expression in tumour vs non-tumour tissues. Transcripts Per Million (TPM) levels of ABL1 across various tissues comparing tumour expression. Data was procured from (<http://gepia.cancer-pku.cn/about.html>)
