Description of Additional Supplementary Files

File Name: Supplementary Data 1
Description: Gene ontology (GO) analysis of biological processes (BP) for proteins part of the DDK-cluster of Figure 1d. The list of gene names from Perseus was used as an input and the analysis was performed with https://geneontology.org using default settings as reported in the excel file (for p values a Fisher's exact test with FDR correction was selected).

File Name: Supplementary Data 2
Description: List of the yeast strains used in this study.

File Name: Supplementary Data 3
Description: List of the primers used for qPCR-based experiments in this study.
