

Supplementary Data 1.

The relationship between PIN1 protein expression and overall survival in a Breast Cancer Tissue Microarray (TMA)

Supplementary Data 2.

Full list of PIN1-interacting proteins identified by mass spectrometry

Supplementary Data 3.

CDH1 peptides identified by mass spectrometry

Supplementary Data 4.

16-Panel Markers for CyTOF

Supplementary Movie 1.

MCF7 cells expressing the APC/C-degron reporter were treated with DMSO and followed for 4 days

Supplementary Movie 2.

MCF7 cells expressing the APC/C-degron reporter were treated with Palbociclib and followed for 4 days

Supplementary Movie 3.

MCF7 cells expressing the APC/C-degron reporter were treated with Sulfofin and followed for 4 days

Supplementary Movie 4.

MCF7 cells expressing the APC/C-degron reporter were treated with AApin and followed for 4 days
