

Supplemental Figure Legends

Figure S1. HuR KO oral mucosal tissues. H&E and immunohistology analysis of HuR in oral mucosal tissues obtained from WT and HuR KO mice. The scale bar denotes 100um.

Figure S2. High expression of HuR in oral squamous cell carcinoma. WT and HuR KO mice were treated with 4NQO, and tumors were collected and stained for H&E, HuR, and proliferation marker ki67. Increased expression of HuR observed in SCC tumors.
