

Certificate of Analysis

FITC anti-human CD45

Catalog No. 304005

Lot No. B261527

Clone: HI30

Format: FITC

Isotype: Mouse IgG1, κ

Concentration: 200 $\mu\text{g}/\text{mL}$

Volume: 125 μL

Applications: FC - Quality tested

Storage: The CD45 antibody solution should be stored undiluted between 2°C and 8°C, and protected from prolonged exposure to light. **Do not freeze.**

Formulation: μg size: Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide.
test sizes: Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and BSA (origin USA).

Preparation: The antibody was purified by affinity chromatography, and conjugated with FITC under optimal conditions.

Expiration Date: March 31, 2025

This product lot has passed BioLegend's QC testing and is certified for use. For details on QC testing view our page at [biolegend.com/en-us/quality-control](https://www.biolegend.com/en-us/quality-control).

*BioLegend guarantees the performance of this product until the expiration date. The guarantee is dependent upon proper storage and handling as instructed on our Product Data Sheets. Every lot of product is quality tested against a "gold standard" reference lot. A new lot is only released based on our defined QC specifications to ensure lot to lot reproducibility and reliability. BioLegend guarantees the stability and performance of all our products shipped at room temperature;

For research use only. Not for diagnostic use. BioLegend will not be held responsible for patent infringement or other violations that may occur with the use of our products.
