

Supplementary Figure S5. Spatial Transcriptomics of patients 2-3

Supplementary Figure S5. Spatial transcriptomics of patients 2-3. Profiled region of interests (ROIs) of spatial transcriptomics (GeoMx) from patients 2 and 3 with relevant staining (DNA: blue, Pan-cytokeratin: green, CD45: yellow, ER: red). D2: diagnostic biopsy (patient 2), S2: surgery biopsy (patient 2), D3: diagnostic biopsy (patient 3), S3: surgery biopsy (patient 3), Lympho: Lymph node. The dots over each image represent the ROI from corresponding segments that passed the QC.
